

**A REVOLUTION IN WIPERS FOR SAFE WINTER DRIVING**

**Introducing**

**The Secret to our blade is the fact that we use a revolutionary frameless metal Blade that conducts heat tip to tip and allows absolutely no ice build up in the tips or throughout the blade.**

**A heated wiper that is so easy to install, it's as simple as plugging it in!**

**The pictures below will demonstrate the wiper in action.**

**This picture was taken before the wiper was turned on.**

**This picture was taken after 3 minutes**

**Notice the side without the**

**and ice build up!**

**still has snow**

**Even after 20 minutes the conventional wiper has ice on it!**

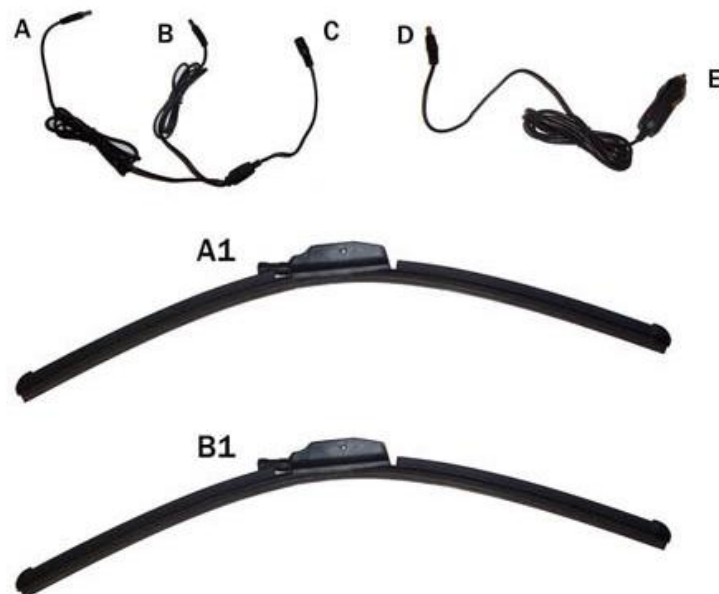

But the

Had no ice at all!!!!

**Installation is a breeze as you can see everything is as simple as plugging it in to your 12 volt outlet**

1. Open hood, locate grommet in firewall.
2. Push end C through grommet.
3. Remove old blades, install new blades.
4. Plug A into A1 and B into B1.
5. Use clips to hold downwires on blade arms.
6. Plug C into D and plug E into 12 volt adapter.

**Every piece plugs in to each other,you can not make a mistake!**

**As a retailer, packaging is the key to successful sales**

**Retail is detail!!!**

**As you can see our wiper system comes in a very attractive, eye catching blister pack.**

- 1. Eliminates snow and ice build up**
- 2. Frameless designed, resists wind lift and rust.**
- 3. High quality materials**
- 4. Installs in minutes**

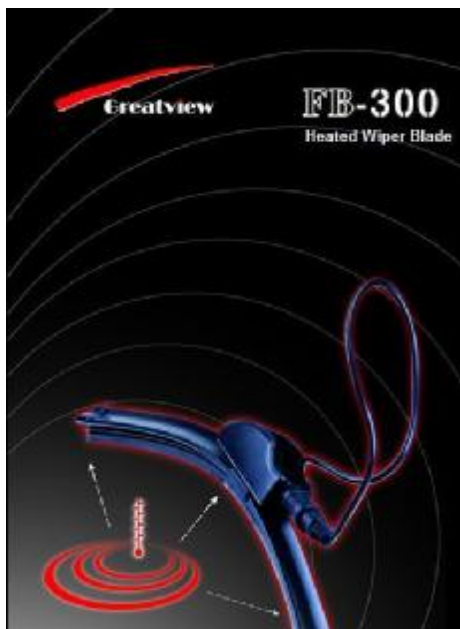

5. Available size for almost every vehicle made  
6.11"/275mm-----28"/700mm

**This is not a transition but a transformation**

is the only truly working heated wiper system that rids the wiper completely of  
ice and snow tip to tip!
